JASPER P. TABIN

I am a passionate and driven Information Technology student, seeking opportunities to apply my programming skills and broaden my experience in web development and various other areas within the IT industry. I am eager to contribute to innovative projects while continuously learning and growing in diverse technology environments.

Work Experience

Administrative Assistant Intern | Lyceum of Alabang

[January 2025 – May 2025]

- Designed an engaging enrollment tarpaulin to attract prospective students.
- Created a structured and visually appealing Senior High School organizational chart.
- Contributed to the design of the Senior High School graduation booklet cover.
- Designed the student handbook for CDSP, ensuring clarity and consistency in layout.
- Provided general office support to maintain workflow efficiency and assist with administrative tasks.

IoT-Enabled Smart Water Quality Monitoring System

Capstone [2023 – 2025]

- Designed the mobile application's UI using Canva and Figma, ensuring a user-friendly layout.
- Edited and produced a video presentation to effectively demonstrate the system's functionality.
- Developed the mobile application using MIT App Inventor, translating UI designs into a working prototype.

Personal Projects

Build a Personal Portfolio Website (tabin-portfolio.vercel.app)

A showcase of my journey as a web developer, highlighting projects and skills. Using React.js, Vite, and Tailwind CSS, I design an interactive platform to display my work and passion for innovative web solutions. Stay tuned for updates as I continue to build and share my latest projects with the world.
